CSR Activities to be implemented during FY 2023-24:

S.N.	Name of the Project
1	<p>Promoting research and studies related to Power Systems in the engineering institutions to encourage excellence in the area: GRID-INDIA Power System Awards (GIPSA formerly PPSA) have been instituted to discover innovations and to encourage excellence in the area of Power Systems by awarding the new research in the related fields and to motivate students to undertake further research & innovation in the Power System. This program aims at recognizing the power system research at all the academic institutions across the country that are offering post-graduation courses in power systems and related fields. This activity is being implemented in association with Foundation for Innovation and Technology Transfer (FITT)- IIT Delhi.</p>
2	<p>Design of Prosthetic hand for below-elbow disabilities: This is an R&D project taken up to support the development of a multi-fingered prosthetic hand comprising a hand frame with one thumb and four fingers for trans-radial amputees. The objective of the project is to come up with prototypes of below-elbow prosthetic hand with capabilities such as independent movement of individual fingers, ability to lift weights below 1 kg, ability to hold non-uniform and various shapes of objects, and infinite life for finger components.</p>
3	<p>Supply of medical equipment and other healthcare infrastructure items in Govt. Hospital/Polyclinic/ Maternity home/ Maternity & Child Welfare Centre: This project aims to support the Govt. hospital / Polyclinic / Maternity home / Maternity & Child Welfare Centre. Activities pertaining to development of facilities and strengthening of existing infrastructure in such hospitals were proposed to be taken up as a part of this project. Medical equipment like fully automated Biochemistry Analyzer has been contributed to Hindu Hriday Samrat Bala shaheb Thackrey Trauma Care Municipal Hospital in Mumbai. This fully automated Biochemistry Analyzer represents a significant advancement, capable of analyzing over 100 samples simultaneously. It covers a broad spectrum of tests, ranging from basic to advanced, including CBC, Kidney & Liver Function Test, among others, ensuring precise and efficient diagnoses.</p>
4	<p>Organizing camps for providing aids and assistive devices to Persons with Disabilities in one of the Aspirational Districts identified by NITI Aayog: This activity was taken up to address the health care needs of persons with disabilities and contribute in their empowerment through provision of appropriate technology and rehabilitation services. This activity was carried out at Namkum, Ranchi, Jharkhand in association with the Artificial Limbs Manufacturing Corporation of India (ALIMCO), a non-profit Central Public Sector Enterprise. Camp for Distribution of Aids and assistive was organized on 30th January 2024 and distribution of Battery operated Motorized Tricycles, Hand Propelled Tricycles and Wheelchairs took place to 83 beneficiaries under the said project.</p>
5	<p>Activities promoting Swachh Bharat Abhiyan/ Swasthya/ Contribution to Swachh Bharat Kosh: GRID-INDIA believes that initiating change begins at the roots, starting with children. Schools play a crucial role in instilling good values, helping children grow into responsible and aware citizens. Through its offices in New Delhi, Bangalore, Kolkata, Guwahati, and Shillong, GRID-INDIA has continued its efforts to raise awareness about hygiene and sanitation. This has been achieved through various activities, such as supplying and installing water purifiers, Electric Sweeping Machines, Organic Waste to Compost Converting machines and providing other sanitary and hygiene facilities in schools.</p>

6	<p>Annual Maintenance charges towards Water ATMs provided at Guwahati & Shillong under CSR activity of FY 2021-22:</p> <p>Safe drinking water is essential for human life. A Water Dispensing Machine (Water ATM) is an automated vending machine that provides pure drinking water. The primary benefit of a Water Dispensing Machine is its ability to offer clean and healthy drinking water to everyone, without any discrimination. The water dispensed by these machines is completely free from germs and water-borne diseases, as it undergoes thorough treatment before being made available for consumption. With the aim to provide clean and safe drinking water, GRID-INDIA took up the project of installation of Water ATM at Guwahati and Shillong during FY 2021-22. To ensure sustainability of the Water ATMs, AMC for one (1) year was envisaged in FY 2023-24. The annual maintenance of Water ATM has been satisfactorily completed for current FY.</p>
7	<p>Capacity Building in the field of Computer education for effective utilization of the infrastructure created in the Govt. Schools in the FY 2017-18 under CSR including maintenance charges of infrastructure:</p> <p>It is the social responsibility of every organization to develop the communities in its vicinity for a sustainable and overall development of the society. To make a step forward in this direction, computer labs were setup in the two Govt. schools located in the vicinity of GRID-INDIA office situated in Katwaria Sarai, New Delhi during FY 2017-18. Computers along with an Air Conditioner, an LED Screen and basic furniture etc. were provided in the lab of each school.</p>
