WARNING NOTICE

The actual transfer of electricity on following corridors has crossed the ATC

Corridor/Control Area	ATC (MW)	Actual Flow (MW)
NR Import	7100	8265

The following regional entities, which are downstream of the congested corridor, are advised to reduce their draw/increase their generation to decongest the system:

1. All regional entities of NR.

The following regional entities, which are upstream of the congested corridor, are advised to

/ increase their draw/reduce their generation to decongest the system:

- 1.

Signature  
Shift Charge Officer  
03/05/16

This is a warning notice before levying of congestion charges and in accordance with the Central Electricity Regulatory Commission (Management of congestion in real time operation) Regulations, 2009

NLDC would send this notice to RLDC and RLDC would send this to the concerned entities.

Note: Payment may be changed as per requirements with prior approval of Central Electricity Regulatory Commission.
