

## Press Release

### **POSOCO organises second vaccination camp, inoculates 300 employees from Power PSUs**

**New Delhi:** Indian Grid Operator POSOCO on Wednesday organised a second Covid-19 vaccination drive during which 300 employees working in various CPSEs under the Ministry of Power were inoculated.

The drive was organised by Power System Operation Corporation in collaboration with Apollo Hospital, Delhi, where both the first and second dose of Covishield were inoculated.

In this drive, employees as well as the contractual staff of Power sector CPSEs/Organisations including POSOCO, PGCIL, NRPC, CEA, CERC, MoP, etc. and their family members were vaccinated.

During the drive, all the safety protocols were followed including social distancing, hand sanitisation, etc. At every step, proper posters were displayed directing the people about all the procedures and precautions to be followed.

The venue for the drive was National Load Despatch Centre (NLDC) office at Katwaria Sarai, New Delhi. Shri R.K. Singh, Hon'ble Cabinet Minister (Power, New & Renewable Energy) and Sh. Alok Kumar, Secretary (Power) have been encouraging consistently all Power PSUs to vaccinate all the employees on an urgent basis.

POSOCO had previously conducted a similar vaccination drive on 11 May 2021 in which Power sector employees and their family members as well as contractual staff were vaccinated for the first dose.

At this occasion, Sh. KVS Baba, Chairman and Managing Director (CMD), POSOCO said, "POSOCO has always been on the forefront to take all the measures to prevent Covid-19. Our first Vaccination camp was very successful and today we organised another vaccination camp

so that all our power sector employees are safe and ready to provide uninterrupted power supply across the nation.”

POSOCO is a wholly-owned Government of India ‘Schedule A’ enterprise under the Ministry of Power. It is responsible to ensure the integrated operation of the Grid in a reliable, efficient, and secure manner. It consists of five Regional Load Despatch Centres (RLDCs) and the National Load Despatch Centre (NLDC).
